PERSONAL PROJECTS

Fromrayacamera | [LINK](#)

- Fromrayacamera is a website gallery showcasing my journey using an analog camera. It also serves as the final project for one of my courses.
- Achieved an A+ grade in one of the final assignments of one of the courses through this project

RAY Movie-List | [LINK](#)

- Ray Movie List is my first React project that displays a list of movies.
- Ray Movie List is a React web app that uses the API from The Movie Database (Themoviedb).

Ray-Min | [LINK](#)

- Raymin is an admin dashboard website that I designed based on my Figma mockup.

BookShelfApp | [LINK](#)

- BookshelfApp is a web app for managing book collections, allowing users to input details such as title, author, and publication date. It categorizes books as read and unread, helping users track their reading progress.
- Bookshelfapp was also the final project in the Dicoding web developer course and received a score of 4.5/5

Rayaadinda-Portfolio | [LINK](#)

- My first website portfolio that uses the Next.js framework and Tailwindcss
- using react email and resend API for the "contact me" feature
- Displaying Responsively on Any Screen
